

GERMAN MESSENGER LEAVES WITH NOTE FROM BERNSTORFF

MEYER GERHARD WILL TELL
BERLIN THAT PUBLIC
BACKS WILSON

U. S. REJOINDER IS READY

Was Laid Before Cabinet Today: May
Be Sent to Berlin This
Evening

AGREES TO PAY DAMAGE.
Washington, June 4.—The German government has agreed to pay indemnity for damage by a German submarine to the American steamer Gulf-light.

(Associated Press)

Washington, June 4: The American rejoinder to Germany's note, short and right to the point, has been drafted by President Wilson himself, and was ready to lay before the cabinet at today's meeting. It asks definitely where Germany intends to be guided by the humane principles embodied in international law for the conduct of maritime warfare.

Gerhard Sailed Yesterday
Meyer Gerhard of New York city, who is understood to be the personal representative of German Ambassador Count von Bernstorff, sailed yesterday from New York on the steamer "United States" for Copenhagen.

Officials documents bearing the seals of Great Britain, France and Russia, giving their guarantee against his molesting allies' war ships were in his possession.

Carried Official Papers
He also carried official papers, signed by the American, German and Austrian authorities, the nature of which was not ascertained. It is assumed, however, that the German and Austrian documents were credentials to Germany.

Whether Gerhard is an American citizen is not known. He will explain to the German officials in Berlin the situation in the United States as respects public opinion toward Germany, and the American viewpoint on submarine warfare as gleaned by von Bernstorff from his recent conference with President Wilson. Hope is expressed by Bernstorff that the plan will result in a satisfactory outcome of the situation.

MAY GO TONIGHT

The note, as laid before the cabinet this afternoon will probably be dispatched late tonight or tomorrow. It has been learned that Gerhard is an attaché of the German colonial office and has been in the United States for several months as a representative of the German Red Cross. There is much confidence in German quarters that a satisfactory understanding on submarine warfare will be evolved. Germany will be informed that the Lusitania did not carry arms.

Cabinet Is Agreed.

All members of the cabinet are practically agreed, it is said, that the United States must insist, before any diplomatic correspondence shall proceed further, upon an affirmative or negative answer to the principle that the lives of non-combatants can not lawfully be imperiled on the high seas but that they must be transferred to safety before any legitimate prize is destroyed.

Following the meeting the members of the cabinet were unusually reticent, but there were some indications that the note was not finally disposed of. "We have reached no conclusion about anything," said one of the officials.

THE GERMAN VIEW

Berlin, June 4: The Vossische Zeitung, discussing a forecast of the American note, says: "It seems on the whole that the tone of this note will be more serious and emphatic than the tone of the first note."

Sheriff Protects Man Said to Have Killed His Son

**Fears They Would Be Lynched
Caused Him To Move
Them**

Harrisburg, Ill., June 4.—John, Neal, Herman and Ben Boner, brothers, charged with the murder of Roy Whitehead, son of Sheriff Whitehead of Johnson county, were brought here and lodged in jail in order to avoid a possible lynching at Vienna.

The Boner brothers participated in a fight at a dance at Tunnel Hill Saturday night, in which two of them, it is alleged, attacked Whitehead with razors and nearly severed his head from his body.

Feeling became so intense at Vienna that Sheriff Whitehead brought the men to this city for safe keeping.

FREEPORT OFFICERS GO FOR ROBISON

**WENT TO MILWAUKEE LAST
NIGHT TO BRING BACK AL-
LEGED SWINDLER**

Freeport, June 3: State's Attorney Manus and Sheriff Ohmsgerds will leave for Milwaukee this evening where tomorrow they will appear before a Wisconsin court and ask the return of A. E. Robison to this city to answer to the charge of wife abandonment and operating a confidence game. Mr. Manus stated today that he expected that he would have to go through lengthy proceedings, so Robison was now out of jail on bonds and inasmuch as he has declared his intention of fighting extradition to this state he will go the limit to obtain his release from the law.

Mr. Manus stated that he would remain in Milwaukee until the case was definitely decided unless the case was continued again, however, it is expected that the case will come to a hearing and that the sheriff will be able to return his prisoner to this city for a hearing before the next term of court.

ATTRACTIONS FOR BIG CELEBRATION TO BE VERY BEST

CHAIRMAN MILLER SPENDS TWO
DAYS IN CHICAGO PREPAR-
ING FOR FOURTH.

TWO BANDS ALREADY SIGNED

Plans Are For the Biggest and Best
Celebration of Its Kind in
History of City.

The celebration to be held in this city on the Fourth of July promises to be one of the largest as well as the best ever held in this city. All the committees are working in unison with this aim in view. There will be something doing from early morning until long after sunset. With pleasant weather, Dixon will no doubt be called upon to entertain one of the largest crowds that has assembled here for a long time.

Chairman Charles Miller of the amusement committee, who is directing the celebration, returned last evening from two days spent in Chicago negotiating with some of the booking agencies for feature attractions for the day. Three or four large platforms will be erected about the business district on which the acts will be given.

Books Attractions.
Mr. Miller closed a contract with the Nine Castilians, Cubans, for a big acrobatic act. These people were featured for three years with Kingling Brothers' circus but for two years past have been filling engagements at state fairs and big circuits. There are six men and three ladies in the group. One of their numbers is the marvelous human bridge act, considered one of the cleverest acts put on. One lady holds the eight other members of the group, forming a pyramid. They will put on the act twice during the day.

The other act booked is the Bonsett Brothers, who will put on a single act twice during the day. One of the difficult feats they will perform will be the head to head, hand to hand balancing act. Mr. Miller has two or three other acts he expects to secure and hopes to have one of the contracts confirmed by evening. There will be at least two, the Morrison and Dixon, and perhaps another, bands to furnish music for the day and everything will be kept moving, with no dragging.

There is likely to be a motorcycle race in the morning, with other races of various kinds during the forenoon and afternoon.

The Woodman quartet will sing and States Attorney Harry Edwards will make the address of the afternoon.

Premier Salandra One of Most Popular Figures In All Italy.

Photo by American Press Association.

One of the big men of Italy and the man who, next to King Victor Emmanuel, is the most popular with the people is Premier Antonio Salandra. When in the late crisis in that country he consented to retain the premiership there was a feeling of calm among the people, who, before the announcement was made, were on the verge of riot. Antonio Salandra is still in the full prime of mature manhood. A native of the little southern town of Puglia, he does credit to that part of Italy where classical traditions, the splendors of the Renaissance period and modern activity have mingled and blended without clashing. He is a full blooded Latin of the most acceptable type, with all the best characteristics of his race in evidence. Calm, well balanced and sane in body and mind, he has a keen insight and a serene outlook on men and things. His legal training and the thirty years of his public life have endowed him with singular competence in the conduct of state affairs and have fitted him well for a task which is difficult and times, but extraordinarily so at this particular moment of the world's history. He is as able as any statesman Italy ever produced to see the fine points in a situation.

MISSING ROCKFORD GIRL IS FOUND HERE

MYRTLE CONGER, WANTED BY
RELATIVES, LOCATED
IN DIXON.

The police department was notified Thursday evening to look for a young girl, Miss Myrtle Conger, who had left her home in Rockford recently and who had written a letter back to friends that she was in this city at 1294 First street. The officers went to the number and found it to be the home of Frank Chare, and located the young lady there. The Rockford authorities were notified that she had been located and they were instructed to hold her. Friends came after her today.

George Conger, father of the girl, arrived here on the noon train today from Rockford and will take her back home this evening. He informed Sergeant Gaffney that his daughter left home last Wednesday evening. He discovered her leaving the house but she eluded him by going through an alley and was assisted in making her get-away by a young man named Hollister. It was later learned that she boarded a train for Freeport and from that city came to Dixon, where she secured employment at the Brown shoe factory and has been working there during her stay in Dixon.

No cars will be permitted to stand along the side of First street during the evening hours and it would be well for all auto owners or drivers of cars to bear this in mind, as the police have been instructed to see that the order is observed.

Lack of Big Shells Cause of Russian Loss of Przemyśl

Many of Their Big Guns Were
Silent After First
Days

London, June 4.—Przemysl, the chief strategic point in Galicia, which was captured by the Russians in March after a siege of 201 days, was retaken at 3:20 o'clock Thursday morning by the Austro-German armies by an overwhelming bayonet charge after the earthworks and entanglements had been demolished by two weeks of incessant pounding by 16-inch mortars. The Russian loss has been terrific but its exact extent is not known. It has been generally understood that there were 250,000 Russians defending the place, but of late many of them were strung out to the eastward to defend the railroad to Lemberg, and may have escaped.

Russ Short of Ammunition.

Reckless as were the German officers in their expenditure of men, the sudden fall of the great fort must be laid more to the failure of Russian ammunition than any other one cause. Three weeks ago the Germans began battering at the outer ring of forts. They kept up an infernal hail of big shells that tore the earthworks to shreds. The Russians replied, and at first the German losses were frightful. But when the works had been sufficiently battered by artillery and the infantry was sent in many of the guns were found without a single shell left.

Captured Guns Used.

The outer forts fell so quickly after the siege guns of the type used at Liege and Namur were brought up that the Russians had no time to remove their big guns. The Germans captured many of them and turned them against the inner circle of forts.

The effect of the fall of this important fortress on the entire Russian campaign cannot be fully foreseen. It is a tremendous loss to Russia. Not only does it release for use at other points a large Austro-German force, but it places in their hands the railway which enables them to continue the phalanx movement by which they drove through Galicia.

DIXON LADY IN ILL HEALTH, IS MISSING; LEFT HOME THURSDAY

MRS. IDA E. DERR DEPARTED
WITHOUT LEAVING WORD
OF TAKING CLOTHING.

HAS BEEN DESPONDENT RECENTLY

Had \$50 In Cash When She Left —
May Have Gone to Visit
Relatives.

Mrs. Ida E. Derr, wife of J. D. Derr of West First street, disappeared from her home Thursday about 2 p. m. and up to this afternoon no trace of her could be found. The officers were not appealed to until this morning, Mr. Derr thinking possibly she had gone to the home of friends and would return, but so far can not ascertain that such is the case.

Mrs. Derr's health has been poor for the past few years and constant brooding has affected her mind, and for several months her actions have been closely watched. Yesterday afternoon she left the house and an inspection of her wardrobe shows that she took no extra clothing with her. She wore a light colored dress, blue hat and carried a cloak and handbag. In the latter was about \$50 in money. She is known to have come down town and was seen in the Geisenheimer & Co. dry goods store at about 3 o'clock, but after that all trace of her is lost. She had been heard to mention recently a desire to visit relatives in Boone, Iowa, and in Chicago, therefore it is not known but that she may have gone to one of these places. Telegrams have been sent to both cities but up to date no answer has been received. As far as can be learned no one noticed her at the depot late in the afternoon. She is a lady past 50 years of age and her hair is slightly streaked with gray.

WOMAN IS FRIGHTENED TO DEATH BY BURGLAR

Mrs. Ova Bethell, Newburg, Ind.,
Succumbs to Shock.

Evansville, Ind., June 4.—The police are searching for a burglar who entered the home of Mrs. Ova Bethell, age seventy-two, at Newburg, near here, and frightened her to death.

Mrs. Bethell, who lived alone, was sitting in her drawing room reading when the burglar, wearing a red bandana handkerchief over his face, thrust a revolver in her face, saying: "I will kill you if you scream."

While the robber was ransacking the house Mrs. Bethell ran to the home of Charles Parsons, a block away, and after hysterically telling her story, became unconscious and died in a few minutes.

Mrs. Bethell lived in the old mansion built long before the war. She had never been molested before and was not in the habit of locking her doors. One of her sons, Union Bethell Sr., is vice president of the American Telegraph and Telephone company at New York and one of the best known telephone men in the United States.

DEMENTTOWN DOINGS

The war is raising the dickens with many stories. Frinstance, no one has yet mentioned that there will likely be an ice shortage this year.

After all, Barnes and Roosevelt may both be right in their estimates of each other. Stranger things have happened.

HIGH SCHOOL TEAM DEFEATS ST. MARY'S

WON LOCAL AMATEUR CHAMPIONSHIP 12 TO 2 THURS.
DAY AFTERNOON

COFFEY PITCHED GOOD GAME

In Face of Poor Support He Worked
Most Painstakingly and
Faithfully.

The North Dixon high school baseball team easily won the local amateur championship from St. Mary's team in their contest at Lincoln park Thursday afternoon, the score of 12 to 2 indicating the ease with which the high school boys copped. The younger boys from St. Mary's played an erratic game, holding the high school lads even at times, then giving way under the strain.

The pitching of Coffey, St. Mary's little twirler, even though he was defeated, was a feature, for he pitched a swell game in the face of poor support, and with the high school lads attired in their batting clothes.

NAILS

A nail is a short stick of steel with a sharp end used to pin boards together, to stimulate the automobile tire business, and to take the place of suspender buttons in an emergency.

A nail has a head like a man. It is a flat head as that of the man who always votes for the candidate to help his own interests. However, the nail's head is harder than the voter's and more useful. You can hammer it without getting into jail.

It is so easy to cooperate a nail that a mere legislator can do it. All you have to do is to stand it against a board and hit it on the temple with a hammer. The amateur usually uses his thumb nail to protect the nail head, but the professional fills his mouth so full of nails that he looks like a hedgehog and drives them in to the hilt with three whacks.

Nails were originally hammered out of iron by a blacksmith. It took a man many days to make a hundred

nails. In those days people carefully saved their old nails instead of throwing them out on the pavement—and yet in those days there weren't any automobiles to benefit from this care. This is a cruelly adjusted world.

In those days a man saved up money enough to buy a keg of nails and then went out and chopped his lumber out of the forest with an axe. We had so much lumber that we burned millions of acres of it and so few nails that a man could buy an egg in January with a four inch spike.

Nowadays a foreigner in overalls feeds a carload of wire into a machine and the latter drips nails at the rate of a keg a minute. But when we desire lumber we go hat in hand to a magnate who informs us that owing to the cruelty of the government in not permitting him to cut down the big trees of California he will have to hoist the price on us another dollar a thousand—and we put off building another year.

Nails are so cheap nowadays that they are used in place of lumber, brick and plaster. It is easy to baste up a boarding house with a few kegs of nails and the nails will be there doing their duty long after the fragile and wormy, holey stuff which they hold together has departed hence under the auspices of the fire department.

GET "FIRE TEST" SUNDAY
AFTERNOON

The Dixon base ball team, which has surprised the fans by the excellence of their game in the contests they have played this season, will get the "fire test" Sunday afternoon, when the Clinton Independents will endeavor to put a crimp in the Dixon string of victories. For in addition to going up against the fastest team they have thus been called upon to meet, the locals will have to face a Central Association battery, Cooper and Cook, two stars. Lightner and Huber will pitch for Dixon with Stratton or Lennox doing the receiving.

Mrs. Blair Crawford left this afternoon for Chicago to spend Sunday before returning to her home. She has been here for three weeks visiting at the home of her sister, Mrs. Ralph Zarger, E. Everett street.

A. W. Kramer and Norman Eichenberg spent the day in Chicago. Misses Minnie McCleary and Irene Young have returned from a visit with friends in Chicago.

Mrs. Ora Webster and daughter Edith and Mrs. Chester Allen and son Francis of Bangor, Mich., are visiting at the William Anderson and Charles E. Miller homes.

Andrew Aschenbrenner of Bradford township was a business visitor in Dixon today.

"SUNNY JIMS" AND "GLOOMY GUS."

Financial and business men throughout the land have divided themselves into two groups—pessimists and optimists. Jim Hill is chief of the "Gloomy Gus" tribe, while Judge Gary or perhaps President Wilson heads the "Sunny Jim" clan. The former see no hope in the present nor future. The war has upset things terribly even now, but when peace is declared the collapse will be total and complete. Woe! woe! woe! The Sunny Jims can see some good at present and in glowing terms foretell of great things that are going to happen in this land of theirs when peace once more reigns. Business and trade will boom and Uncle Sam is to emerge head and shoulders above all other members of the great family of nations. Now, we might just as well accept the theory of the "Sunny Jims" as the "Gloomy Gusses," be happy and go about our business cheerfully, for neither side really knows how it will turn out. They are both guessing. There is no use borrowing trouble, for there is enough of that, anyway. And the chances are at least even when the time comes the trouble looked for has vanished.

"TO BE, OR NOT TO BE."

Nations both big and little are greatly troubled in the present world crisis. In San Marino, the tiniest republic in the world, a grave discussion is being carried on as to whether it shall take sides or remain neutral. It is situated on the Adriatic on the eastern coast of Italy and is only twenty-two miles square in area. It is entirely surrounded by Italian territory and would naturally side with that country unless it remains neutral. It has a standing army of some two hundred men, much larger in proportion to the inhabitants than that of the United States.

MAY EXPECT HIGHER TAXES.

Appropriation bills contemplated by the general assembly total about forty-three million dollars, an increase of more than three million over that of last session. This does not include several other items such as a bond issue of five million and the appropriation to reimburse owners of the cattle slaughtered in the recent epidemic of foot and mouth disease. From these figures it will be seen that living is getting higher in Illinois and that we may also expect a boost in taxes.

VOTE FOR THREE JUDGES.

Voters at the judicial election next Monday should bear in mind that three circuit judges are to be elected and each voter is entitled to cast one vote each for three candidates. You can not cast three votes for one candidate nor a vote and a half each for two candidates, as is the case under the present minority plan of voting in the election of members of the legislature.

So don't forget to mark a cross in the square in front of the names of three candidates.

Only men are eligible to vote for the judges. Women can not vote for the judicial officers.

THE GREAT DIFFERENCE.

Ambassador Bernstorff seems greatly agitated over the present strained relations between this country and Germany. He asked and was readily granted an interview with President Wilson although our own representative in Berlin never gets closer to the inner circle than Von Jagow, the foreign secretary. This is a striking illustration of the difference between our own government and that of imperialistic Germany.

MEXICO LEADS.

After reading the Bryce report on conditions in Belgium since the war broke out it becomes apparent that what was once called civilized warfare exists only in Mexico where Americans and other foreigners have lived in the midst of alarms and actual fighting for four years with little loss of life. At one stroke more neutrals perished when the Lusitania went down than have been killed in Mexico in all its little revolution.—New York Commercial.

MR. TAFT'S EXCLUSION.

Speaking as a private citizen who harbors no political ambition, Mr. Taft counseled the republicans last week to "receive the progressives back into the party fold on condition that they leave behind them their fads, nostrums and isms."

But if a progressive is stripped of his "fads, nostrums and isms" what would be left of him?—N. Y. Sun.

BROWN OCTOBER ALE.

How many ringing songs there are that celebrate the wine, and other goods behind the bar as being wondrous fine! How many choruses exalt the brown October ale, which puts a fellow's wits at fault, and lands him in the jail! A hundred poets wasted ink, and ruined good quill pens, describing all the joys of drink in gilded boozing kens. But all these joys are hollow fakes which wisdom can't indorse; they're soon converted into aches and sorrow and remorse. The man who drains the brimming glass in haunts of light and song, next morning knows that he's an ass with ears twelve inches long. An aching head, a pile of debts, a taste that's green and stale, that's what the merry fellow gets from brown October ale. Untimely graves and weeping wives and orphans shedding brine; this sort of thing the world derives from bright and sparkling wine. The prison cell, the scaffold near; such features may be blamed on wholesome keg and bottled beer, which made one city famed. Oh, sing of mud and axle grease, but chant no fairy tale, of that disturber of the peace, the brown October ale!

Dramatic Notes

PRINCESS THEATRE.

Tonight the Princess theatre will show a two reel Kay-Bee feature entitled "The Human Octopus," with Walter Edwards and Clair Williams in the leading roles. A story wherein are exposed certain charlatans of the underworld. This is a drama of conditions never seen before. The other reels are the Mutual Weekly, showing the latest war zone scenes and current events of the world; and a Komeie entitled "Ethel's Romance," chapter-23 of the famous Bill series.

FAMILY THEATRE.

The Countess Von Dorman and her two assistants gave the best musical number at the Family last evening that has played here in many months. The countess can sing and has range that will permit the singing of any grand opera selections in perfect style. Her selections were most satisfactory and included the popular numbers as well as heavier ones. The two young ladies who accompanied her on the harp are artists. They played a number of selections which were most pleasing. Corelli has an aerial thrill wherein all natural laws are defied, and he gave a marvelous and amazing performance. By way of comedy Oliver & Dwyer fill the bill to the utmost. Pictures tonight are "Aurora Floyd," a two reel Biograph drama, and "The Other Man's Wife," a Vitagraph comedy.

FRENCH PLANES PERIL CROWN PRINCE'S LIFE

29 Raid Headquarters of German Heir Apparent.

Paris, June 4.—A squadron of twenty-nine French aeroplanes flew over the German lines between 4 and 5 o'clock in the morning and raided the headquarters of the German crown prince. The men dropped 178 bombs in all and thousands of arrows were scattered through the air. The raiders were under a furious fire during their attack, but none of the aeroplanes were damaged.

The war office statement, which announces the raid, does not mention the locality of the crown prince's headquarters. They were last spoken of, however, at a point northeast of Verdun. Nothing is said about damage to the headquarters.

French entrenchments in the district called the labyrinth southeast of Neuville-St. Vaast, and some gains are recorded. Since May 31, the French have made 800 prisoners in this locality. The gains here have been slow but of daily occurrence and it is generally felt that important news will soon be announced regarding the outcome of the battle.

DIES PROMPTLY ON SCHEDULE

Man, Who Made Plans for Funeral Before Trip, Is Buried.

South Bend, Ind., June 4.—Possessed of the idea that he would not live to return from a Western trip, Gustave A. Klingler, recently elected trustee of Portage township, in which South Bend is located, and a well known member of the Masonic fraternity, stepped into the office of County Auditor Clarence Sedgewick and to him dictated plans for his own funeral, selecting the minister, pallbearers and hymns. He also selected the master to conduct services at the grave. The funeral was held Thursday, for Klingler died when he reached Webster City, Ia. After giving directions for the funeral before his departure, Klingler changed the subject and refused further to discuss his act.

STEEL "TRUST" IS HELD LAWFUL

Billion Dollar Corporation Need Not Dissolve, Court Holds.

SUIT WAS DEGUN UNDER TAFT

U. S. District Court Passes Adversely on Government's Big Anti-Monopoly Proceeding—Issue One of Business Facts—Operation Not Adverse to Public or Other Interests.

Trenton, June 4.—The federal court handed down a decision in the suit of the government for the dissolution of the United States Steel Corporation in favor of the company. The company wins at every point.

The court refused to issue any injunction. The decision holds that the corporation should not be dissolved. It holds that the foreign trade of the corporation is not a violation of the Sherman anti-trust law.

Talk Prices Unlawful.

It holds that certain price fixing agreements which followed the Gary dinners, but which stopped before the bill was filed, have been unlawful.

It allows the government to move to retain jurisdiction of the bill if such price fixing practices are renewed but suggests that such matters may now be controlled by the new federal trade commission.

The above are the important points in the decision which was handed down by Judge Buffington. The decision contains 179 pages of type written matter. The court called the case a proceeding under the Sherman anti-trust law "largely one of business facts."

Only Bad Trusts Affected.

The opinion is largely a discussion of facts on the question of whether the steel corporation monopolized the steel trade or dealt unfairly with competitors or purchasers. The opinion declares that all the trust cases that have been determined settle down to this: That only such combinations are within the Sherman law as by reason of the intent of those forming them in the inherent nature of their contemplated act wrong the public by unduly restricting competition or unduly obstructing the course of trade.

In answer to the questions which the court was to determine with respect to whether when the suit was filed, the steel company was unduly restricting competition or obstructing trade in the home market, the decision holds that the proofs show that when the bill was filed the company's competitors were doing 60 per cent of the country's steel and iron business. On this question the opinion says:

"The field of business enterprise in the steel business is as open to and being as fully filled by the competitors of the steel corporation, as it is by that company."

Filed When Taft Was President.

New York, June 4.—The suit to dissolve the United States Steel corporation was started during the administration of President Taft. His attorney general, Geo. W. Wickersham, and ex-Judge Jacob M. Dickinson, special assistant attorney general, drew the petition and caused it to be filed in Trenton.

The petition, naming thirty-seven defendant corporations, five men as trustees and eighteen as officers of the corporation itself and subsidiaries was brought under the Sherman anti-trust law.

NO "JINGO" IN WHITE HOUSE, TAFT PLEASSED

"If We Had One U. S. Would Be at War With Germany."

Philadelphia, June 4.—"If we had had a jingo in the White House," said former President Taft in an address at the commencement of Bryn Mawr college, "this country would now be at war with Germany."

"Instead," said Mr. Taft, "our chief executive is a man who appreciates his responsibility and realizes that considering the temper of the people, a turn of his hand would plunge us into an international conflict."

The commencement was of especial interest to Mr. Taft because his daughter Helen was one of the graduates. She received the degree of bachelor of arts.

Big U. S. Shrapnel Order.

New York, June 4.—The Iron Age says: "The large sales of round bar for shrapnel and for gun barrels are still the outstanding feature, 60,000 to 70,000 tons of such business having been placed in the Pittsburgh district in the last week. One considerable shrapnel contract on which the work is under way in the central west is understood to be for the United States government."

MEET IN MORNING

The meeting of the Locust Cemetery Association which was announced or tomorrow will be held at 10:30 in the morning at the cemetery.

CARRANZA WILL PUSH CAMPAIGN

Washington Mouthpiece Is Obdurate on Wilson Proposal.

VILLA IS REPORTED TRACTABLE

U. S. May Be Forced to Resort to Radical Measures—Statement Issued From First Chief's Headquarters Says He Controls Nearly All Mexico and Every Port.

Washington, June 4.—That Carranza is bent on pushing his campaign without regard to the injunction of President Wilson is indicated in a statement made public by Alizo Arredondo, the Carranza agent in this city. Apparently Carranza is in no mood to compromise.

The announcement made by Mr. Arredondo says that Carranza is determined to continue his campaign against Mexico City and the inference is plain that the first chief believes he should be accorded recognition by the United States.

While officials are not disposed to prejudice Carranza's attitude until he has had opportunity to reply to President Wilson's warning which has been forwarded to Vera Cruz, they fear that Carranza may not fall in with the plans proposed for the reconciliation of the various factions. This would mean that the United States would be forced within a short time to resort to more radical measures, "to help Mexico save herself and serve her people."

Villa Tractable.

While Carranza apparently is defiant, it has been said in behalf of Villa that he will accept in principle the proposal of President Wilson that the contending factions settle their differences otherwise than by armed force. A formal reply to this effect is expected from Villa. Carranza's reply is believed to be foreshadowed in the statement made public by his Washington agent.

Carranza Controls Nearly All.

This statement proclaims that Carranza controls seven-eighths of Mexico's territory and all seaports on both coasts, that he has an army of from 80,000 to 100,000 men and that within a week he will take Mexico City and call elections for officers of a constitutional government.

If Carranza carries out this program the United States may be compelled to act at once, unless the president should decide that Carranza had made a showing that justified his recognition.

Recognition of Carranza by this government, however, is regarded as improbable. In fact, it is generally understood that the administration does not regard Carranza or any of the other leaders now prominent in the public eye as likely to bring about reconstruction in Mexico.

Those who know Carranza best are firmly of the opinion that he will refuse to compromise with his enemies in Mexico and that he will resist to the utmost any effort that may be made by this government to restore order in that country.

Anything to Beat Carranza.

In a statement prepared by friends of Villa in Washington the announcement is made that Carranza's personality "is the only man standing between Mexico and peace." They fear that Carranza will remain obdurate and that he never will voluntarily relinquish the authority he now exercises in Mexico.

Gouverneur Morris—"Father of the Penny"
AMONG all the framers of the Constitution of the United States none were more adept at constructive statesmanship than the "father of the American decimal system" and originator of the copper cent. The finish, style and arrangement of the Constitution fairly belong to the brilliant and eloquent Morris. From his youth to the hour of his death he was a devoted and dauntless worker for American progress. His unrivaled ability as an orator was known throughout Europe, and his funeral orations on Washington, Clinton and Hamilton are treasured American classics. Gouverneur Morris was an indomitable supporter of the Louisiana Purchase. He it was who rescued LaFayette from prison walls and aided him from his private purse. Personally he was very handsome; his nature was impulsive, but his heart was warm and generous. He loved society, and his hospitality was famous. All his life he drank the creative brews of malt and hops, and who will dare say that it weakened his will power or detracted from his success, his fame, his glory and his might? It was upon the tenets of the Constitution of the U.S.A. that Anheuser-Busch 58 years ago founded their great institution. During these 58 years they have daily brewed from the finest barley and hops beers famous for being alive with natural force and nutriment. Their great brand **BUDWEISER**, because of its quality, purity, mildness and exquisite flavor, exceeds the sales of any other bottled beer by millions of bottles. **BUDWEISER'S** popularity grows daily, and 7500 people are daily employed to keep pace with the public demand.

WHY WOMEN SUFFER

MANY DIXON WOMEN ARE
LEARNING THE CAUSE

Women often suffer, not knowing the cause.

Backache, headache, dizziness, nervousness, irregular urinary passages, weakness, languor—

Each a torture of itself.

Together hint at weakened kidneys.

Strike at the root—get to the cause.

No other remedy more highly endorsed than Doan's Kidney Pills.

Recommended by thousands—

Endorsed at home.

Here's convincing testimony from a Dixon citizen.

Mrs. W. Geiger, 1218 W. Sixth St., Dixon, says: "I get a dull pain in my back, especially when I wash or sweep much. As soon as I feel one of these attacks coming on, I use Doan's Kidney Pills, which I procure at Leake Bros. Co.'s Drug Store and they never fail to remove the trouble."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Geiger had. Foster-Milburn Co., Props., Buffalo, N. Y.
